ABSTRACT

LITTLE CAT BUT COMMUNITY POWERFULL
WELCOME TO

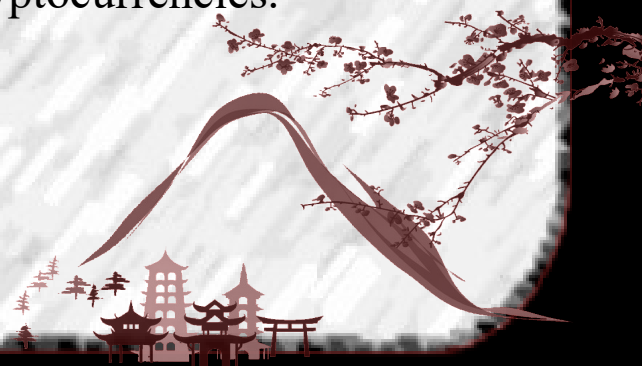

CHIKARA

INU SLAYER

CHIKARA is the most powerful P2E token of the year 2023. Our goal is to bring value and strength to the DeFi ecosystem. We believe that creating strong relationships among holders is the key to achieving this goal. Together, we can build a vibrant and robust community that supports the growth and development of CHIKARA.

CHIKARA is a deflationary cryptocurrency that allows users to engage in battles using ALL INU TOKENs. The cryptocurrency market is saturated with dog-themed coins, but lacks enough options for cat lovers. With CHIKARA, we aim to change that and offer a new and exciting alternative

CHIKARA is designed to address the token balance disparity between dog-themed and cat-themed cryptocurrencies.

VALUE

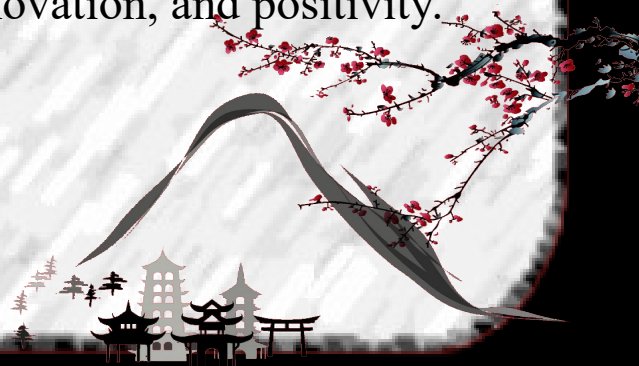

Our roots are our community

At CHIKARA, our mission is to build a strong and innovative community that radiates positivity and good vibes. We invite you to join us and become a part of this vibrant and exciting movement.

Together, we can create the best memecoin community and outperform even the most successful inu tokens. We will achieve this by training on our P2E games and building a strong army that values every member's contribution. Our 8-level game and exclusive collection of NFTs will provide the foundation for our growth and success.

While our concept is centered around taking revenge on dog-themed tokens, this is only within the framework of our games and remains a lighthearted aspect of our token. We believe in supporting animal causes and have created a charity wallet to contribute to animal welfare.

Join us and let's create something special together - a community that values creativity, innovation, and positivity.

ROADMAP

To beat the dogs we have a plan

Q2 - 2023

- Website design
